RODRIGO CAMBRAIA

SOFTWARE ENGINEER

PROFILE

I'm a brazilian developer called Rodrigo, I was born in September, 1999. Joined the tech area in 2020, and since then, I had a fast progression learning by my self the most I could, as I like to get my hands dirty.

   One of my qualities at work, is sense of ownership for all the projects that I join. I'm always opened not only to sharenew knowledges, but also receive reviews from my colleagues, regardless of the person's seniority level.

   I like working at challenging features, and using new tools or modern versions, because this is a nice way to learn new stuff, and also have the feeling of mission acomplished after delivering those features.

HARD SKILLS:

- C# / .NET core
- Xamarin
- Datadog / Kibana
- Entity Framework, Migrations, AutoMapper
- CQRS, DDD, SOLID, MVC
- MySQL / SQL Server
- Swagger / Postman
- Azure DevOps
- Firebase
- Git / GitHub
- HTML / CSS / SCSS / Bootstrap / Javascript
- Typescript / Angular / Angular Material
- Ionic
- PWA (Progressive Web Apps)
- Portuguese (Native) and English (fluent)

SOFT SKILLS:

- Sense of ownership at all the projects that I work.
- Communicative
- Fast learning
- A very calm and easy-going person.
- Good team interaction, always a good listener.
- Proactive
- I Like giving opinions and sharing suggestions with the team members.
- Excelent writing / speaking
- Always trying to put myself in my colleague's shoes
- Good emotional control, even in stressful situations.

EXPERIÊNCIA PROFISSIONAL:

SOFTWARE DEVELOPER II

LOCALIZA &CO - nov/2022 - now

REST APIs Development, application deployment with Azure DevOps and Harness.
Application monitoring with Datadog and Kibana.
Solving performance problems with a large ammount of data.
Solving bugs from legacy applications with SOAP requests.

SOFWARE DEVELOPER

ASC SOLUTIONS - set/2022 - nov/2022

Guiding and monitoring trainees and junior developers, and also giving them proper training during the adaptation period.
Doing code reviews, Pull request approvings.
Code refactorings, and also providing architectural solutions for the existing projects

JUNIOR SOFTWARE DEVELOPER

ASC SOLUTIONS - nov/2021 - ago/2022

Developing and delivering new features based on SCRUM, working at legacy projects with JQuery, bootstrap, .NET 3.5, C#, MySQL, doing bug fixes and code improvements.
 Worked at a multi tenant mobile PWA app from the scratch, building database relations with code-first, developing end-to-end features(from the database, providing API queries and endpoints, to the front-end making requests and building the proper UIs). Also, a highly parameterized app, with friend adding / blocking system, vehicle and boats registering, creating and joining club events, admin system for desktops, and lot more.
 Worked at another legacy project called VoucherSeguro, an app that sells tickets for events, developing new features, performance improvements, and bug fixing.

TRAINEE

ASC SOLUTIONS - Jun/2021 - Out/2021
